POST GRADUATE DIPLOMA IN AGRICULTURE EXTENSION MANAGEMENT  
(PGDAEM)

There has been a shift in focus from subsistence to commercial agriculture thereby increasing the farmers need for advanced technologies. The demand on the public extension system for dissemination of up-to-date technology called for upgradation of both technical and extension skills of extension functionaries. The present day extension functionaries performing multifarious activities besides extension work are not adequately equipped to shouldering the responsibility for effective delivery of agriculture information.

In order to professionalize the public extension service for effective delivery of extension services, a post Graduate Diploma in Agricultural Extension Management (PGDAEM) has been launched for the agriculture extension functionaries. It is expected that the diploma holders would form a professional cadre of farm advisors to take forward the agenda of agriculture extension. The programmes, launched on 27<sup>th</sup> October 2007 for the public extension functionaries in distance learning mode, is sponsored by Department of Agriculture and Cooperation, Ministry of Agriculture, Government of India. The programmes would cover the extension personnel from the districts where Agriculture Technology Management Agency (ATMA) have been established and functioning.

- Course Objectives –
  - To enhance the techno-managerial competence of extension functionaries
  - To acquaint the extension functionaries on the latest developments in the field of agriculture and allied sectors
  - To equip the extension functionaries in latest tools and techniques for participatory decision making and
  - To develop an insight into various extension models to enrich the agri-value chain

The programmes is open for extension functionaries of agriculture and the departments employed in the State/Central/UTs sponsored by the ATMA. The duration of the programmes is of one year spreading over two semesters with thirty-two credit load. In each semester, contact classes will be held at SAMETI/ an identified institute within the State. The programmes is conducted in distance learning mode supported by printed study material, contact classes, provision of e-content and assignment. The candidate is required to complete one assignment in each course in a semester.

DIPLOMA IN AGRICULTURAL EXTENSION SERVICES FOR INPUT DEALERS  
(DAESI)

There is a wide gap between technical know how and field level do how particularly in the fields of small farmers, marginal farmers, share croppers, tenants and farmers belonging to scheduled casts and scheduled tribe communities. Public Extension System alone is not sufficient to make our agricultural sector keep pace with the world agriculture system. The National Agricultural Policy and 11<sup>th</sup> Plan approach paper have stressed on the need for reforms in agricultural extension of the country.

The Ministry of Agriculture, Government of India emphasized on Multi Agency Extension Services such as Multi National Companies, Corporate Bodies, Voluntary Organizations, Farmers Associations and Input Dealers etc. Among all the agencies, Input Dealers/agencies in larger in number and spread even in interior areas of the country. Unlike other approach Input Dealers for their requirements i.e. Inputs, Credit etc. There is a large network of about 2.82 lakh Agri. Input Dealers in the Country, who are the important source of Farm Information to the Farming Community. Nearly 90% of the Agri-Input Dealers operation in our country do not have any formal Agricultural Education.

These input dealers seldom realize the implication of "Laws related to handling Agricultural Inputs. They are basically businessmen and know about different market forces. If they are transformed as para-professionals by providing required knowledge, they can make market Led Extension, a reality thereby bringing a paradigm shift in Indian Agriculture. MANAGE has designed a one year Diploma in Agricultural Extension Services for Input Dealers (DAESI), which impacts formal agricultural education to the dealers so that they can couple their business with extension services besides discharging regulatory responsibilities.

- Objectives –
  - Orient on location specific crop production technologies of broad-based agriculture and specific package of practices related to field problems.
  - Capacity building of Input Dealers in efficient handling of Inputs.
  - To impart the knowledge about the laws governing regulation of Agricultural Inputs.
  - To make Input Dealers effective source of farm information at village level (one stop shop) for the farmers/farm women.
  
- Methodology –

Distance Education mode is adopted with classroom interactions and field visits on every Sunday (Market Holiday) for 48 Sundays approximately. Supply of study material, using multi-media instructional devices with the help of experts in the field as Resource Persons is also adopted
